Thanks - helpful to see the # of facilities.

Questions that pop out for me for operators:

Ex. 5 - Deliberative Process

I'm off to Calgary tomorrow for remainder of week with my ECCC colleagues and wont be lugging my computer with me but I'll be checking email on my work iPhone - I'll check back in this weekend on new workbook stuff - and take a look at my 11x17s I printed before I left.

Subject: VOC lbs/bbl Comparison Numbers

Hi Cindy

Pls see attached for the VOC lbs/bbl comparison b/t EI IC data and U&O FIP data.

There are two tabs, the first tab has all the operators and the second tab has only the operators found in both the EI IC and U&O FIP data. When I combined the two sets of data, for APC (from the EI data) I put in Anadarko Uintah Midstream (from the FIP data) and there's also Kerr-McGee (from the FIP data). For QEP Energy (from the EI data), I put QEP Energy Company data (from the FIP data) and there's also QEP Field Services Company (from the FIP data). For LINN Operating (from the EI data) there is Berry Petroleum (from the FIP data). See table below...
